

# AlSCO makes their WFM solution more uniform with UKG and Align HCM

## Client spotlight

- 20,000 employees
- Uniform services
- Salt Lake City, UT

### Client situation

- AlSCO suffered from years of incorrect system configuration updates on their pay rules which led to historical pay inaccuracies
- They had a fairly complex pay rule configuration in UTA as well as multiple pain points in functionality and related HCM processes

### Solution

- Align HCM delivered a UKG workforce management review to compare AlSCO's UTA pain points to moving to UKG Dimensions.

### Results

- The Align team corrected the configuration and identified potential pay adjustments required
- The AlSCO team concluded that the best path forward would be to move to UKG Dimensions.
