

Bodycote Canada successfully standardizes on UKG with Align HCM

Client spotlight

- Thermal processing services
- Burlington, ON

Client situation

- Bodycote Canada's HR and payroll processes were with another 3rd party vendor while US and global payroll/HR is using UKG Pro and Dimensions.
- Bodycote was looking to standardize all HCM operations on UKG

Solution

- Align was chosen as a partner to implement UKG Pro for Bodycote's Canadian operations.
- Align had a team of Canadian Payroll experts that could offer best practice set up and legislative based solutions for Core HR/payroll.
- The Align team also helped the Bodycote team manage and run Canadian payroll processes. They provided guidance on Canadian rules and regulations on benefits reporting for tax purposes.

Results

- The UKG solution now provides a centralized platform and payroll processing was brought in house.
- Bodycote gained confidence in processing Canadian payrolls with no issues and benefitted from more control over the process.
- Their GL process became seamless and eliminated manual entries.
