

Werner Co climbs to new heights with UKG and Align HCM

Client spotlight

WERNERCOTM

Client situation

- Werner's legacy HCM products did not satisfy their business needs and required multiple manual processes
- They sought best-in-class solutions for onboarding, time and payroll that could be rolled out globally
- Having had a bad experience with a legacy product rollout using a different partner, Werner needed a team they could trust to guide them to success

Solution

- Align HCM implemented UKG Pro and Dimensions in six months with one integrated team and project manager
- Align is working with the Werner team to optimize the solution as the organization adopts the new solution and associated processes

Results

- Werner Co now has a fully automated and integrated time and payroll solution rolled out in the US
- Global locations are being added next

- 3,000 employees
- Manufacturing
- Itasca, IL
