

# Eagle Materials soars with Align and UKG Dimensions

## Client spotlight

- 2,200 employees
- Manufacturing
- Dallas, TX

### Client situation

- Eagle has been live on UKG Pro since 2015 with 15+ companies. They grew by acquisition and most locations operated independently.
- They launched their “One Eagle” initiative to centralize HR solutions and upskill their team.
- The Eagle team also felt like there was insufficient training and change management when they originally rolled out their UKG solution.

### Solution

- Align was engaged to help drive consensus with “One Eagle” and to provide subject matter expertise, best practices, solution guidance and advisory
- Align assembled a team of consultants to advise on pain points related to UKG Pro modules and Dimensions

### Results

- Eagle Materials was able to optimize existing processes as well as create reports for easier validation and day-to-day management
- Eagle has gained solutioning and guidance for accommodating new policies and business needs
- Align has earned trusted advisor status with Eagle as their go-to problem solving team
